- **Car:** Remove odors and harmful gases and purify air in car.

Specification:

Model Name: Mini Ozone Purifier

Power Consumption: 0.4W

Input Voltage: DC5V

Ozone Output: 5mg/h

Anion Qty: 5×10^5 pcs/m³

Net Weight: 0.1kg

Product Size: $\phi 82 \times H43$ mm

With Lithium Battery: Yes

Working space: ≤ 0.35 m³

Battery Working Time: Continuous running 15 hours.

Application: Shoe Cabinet, Refrigerator, Car, Wardrobe.

Packing Size: 540*445*228mm

Packing Quantity: 80pcs

20`GP: 40000pcs

○ 30min continuous work

○ 8h timing cycle (10min work, 2min rest)

Battery level indicator charging port.

Removable cover for easy cleaning ozone generator.
