3. Please turn off the item when not in use.

### Technical Specification

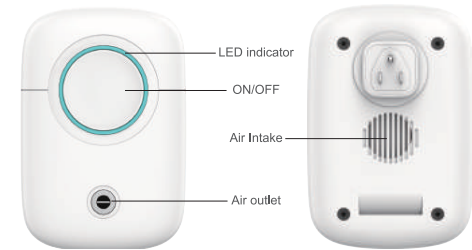

Model: WTS - 123  
Rated voltage/frequency: 100-240V ~ 50Hz, or USB DC5V  
Rated power: 10W  
Size: 150 × 100 × 83mm  
Negative ion output:  $5 \times 10^6$  n/cm<sup>3</sup>  
Ozone production 70 mg/h  
Effective area: 10-15 sq.m /107~161.5 sq.ft  
Net weight: 289g

### Features

- AC 100-240V wide input voltage range, support USB 5V DC input.
- 5 million/cubic centimeter negative ions, strongly remove smoke and dust.
- Negative ion + Ozone + Night light.
- Ozonizer can shift between Timing(30 minutes) and Auto Cycle work mode.
- No other consumables needed.
- Less than 10w, energy saving.
- Decomposition of odor, disinfection and sterilization, decomposition of formaldehyde, benzene, ammonia and other decoration pollution.

### Operating Instruction
